Sheikh Nafis Mahmud

Pilot dreams, coding schemes, and a heart full of patriotism

Summary

Former web developer, now a Marketing major. A lover of beef and coffee! Spent 2020-2022 in the coding world, but I've 'retired' my keyboard for now. I'm also good with my pen or keyboard, writing my thoughts based on my experiences and interactions.

Aspiring pilot, who loves exploring new places, meeting new people, and discovering their life stories with my two wheelers.

Welcome to share thoughts about business, politics, life experiences, or dreams!
